AirTight Networks Expands Relationship with ACW as Regional Distributor for WIPS in South Asia

AirTight Networks and ACW Broaden Partnership and Deepen Offerings to the South Asia

Markets

Singapore, 16 April 2009 – AirTight Networks, Inc, the global leader in wireless security solutions today announced an expanded strategic partnership with ACW Distribution (S) Pte Ltd (“ACW”). AirTight provides customers with best-of-breed wireless intrusion prevention (WIPS) technology to automatically detect, classify, block and locate all current and emerging wireless threats.

‘We are extremely delighted to be awarded the Regional Distribution rights for the South Asia markets. This appointment marks a new milestone in our partnership with AirTight Networks as a result of the good track record which ACW Distribution has achieved in past years of collaboration. AirTight Networks continues to bring a wealth of wireless security and compliance solutions, which we find that the South Asia markets will greatly benefit from as investments in wireless infrastructure in the region continues growing exponentially.’ says Sam Chng, Regional Sales Director for ACW South Asia and India.

The rising demand for any time anywhere connectivity and communications has increased investment in wireless infrastructure in the region bringing with it a new set of challenges and threats. Organizations today have rising concerns about compliance and standards when they deploy wireless solutions and AirTight is well-positioned to tap into this growth with its rich expertise in this area.

ACW will continue to market the wireless security and compliance products and solutions from AirTight Networks to an extensive channel of system integrators and VARs through programs such as training

initiatives for channel partners, user-awareness events and strategic sales and marketing promotions campaigns in Singapore, Malaysia, Indonesia and Thailand.

About AirTight Networks, Inc

AirTight Networks is the global leader in wireless security and compliance solutions providing customers best-of-breed technology to automatically detect, classify, locate and block all current and emerging wireless threats. AirTight offers both the industry's leading wireless intrusion prevention system (WIPS) and the world's first wireless vulnerability management (WMV) security-as-a-service (SaaS).

AirTight's award-winning solutions are used by customers globally in the financial, government, retail, manufacturing, transportation, education, and healthcare, telecom, and technology industries. AirTight owns the seminal patents for wireless intrusion prevention technology with 11 U.S. patents and two international patents granted (UK and Australia), and more than 25 additional patents pending. AirTight Networks is a privately held company based in Mountain View, CA. For further information, please visit <http://www.airtightnetworks.com/>
