NETASQ appoints ACW Distribution in Singapore & Malaysia

Singapore, 6th February 2011 - NETASQ, a leading network security vendor providing high performance intrusion prevention security with its patented technology that includes threat management features announced the appointment of ACW Distribution (S) Pte Ltd ("ACW"), a leading IT enterprise solutions provider in Asia, as their Singapore & Malaysia distributor.

Under this agreement, ACW will distribute and market through its extensive channel-partners and network NETASQ's hardware and software solution and so to establish a wide customer base with excellent sales and support in South Asia.

As firewalls are breached and systems are hacked, computing threats are beginning to dominate our networks. However, customers can be reassured as NETASQ is well-known for developing innovative and reliable network security appliances that protect customers' data and their ICT infrastructure. In today's society, it is crucial that we protect our network security and NETASQ provides permanent protection by offering multiple security features in one device, which are customised to meet customers' needs. NETASQ also allow organisations to anticipate future attacks and avoid the risk of fake positive alerts. We are elated to be appointed Singapore's distributor for NETASQ." said Johnny Law, Regional Sales Director, ACW.

About NETASQ

NETASQ is one of the leading European network security vendors and is best known for designing and building the NETASQ UTM (Unified Threat Management) range of “all-in-one” Network Security appliances that combine multiple security features in one device. Key features include intrusion prevention, firewall, antivirus, antispymware, antispam, content filtering, VPN access and NETASQ SEISMO for improved real-time vulnerability detection and risk management.

NETASQ customers benefit from their unique approach and foresight in developing innovative network security solutions, based on market leading technologies. SME, large enterprises, geographically distributed organizations and MSSPs can all benefit from our real time, Zero-Day prevention network security solutions. Every NETASQ appliance includes protection against malware (virus, spam, phishing) and content and URL filtering. NETASQ’s solutions give their customers assurance that a security threat will never jeopardize their activity. NETASQ enable business continuity and contribute to their success as they can focus 100% of their effort on growing their business.
