Ruckus Wireless Appoints ACW Distribution in Singapore

Singapore, 18 August 2010 – Ruckus Wireless, the leading supplier of advanced wireless systems for the mobile Internetworking market, today announced the appointment of ACW Distribution (S) Pte Ltd (“ACW”), a leading IT enterprise solutions provider in Asia, as the distributor in Singapore.

Under this agreement, ACW will distribute and market through its extensive channel-partners network Ruckus’s indoor and outdoor Smart Wi-Fi products and establish a wide customer base with excellent sales and support in Singapore.

“It’s amazing to see how Ruckus is revolutionizing the wireless and if not, the entire networking industry. Ruckus’s single unique patented technology to steer Wi-Fi signals is a winning factor in this market, as Wi-Fi reliability and performance can be guaranteed now with Ruckus’s Smart Wi-Fi products, which meets the increasing demand of wireless network infrastructure across various industries. This trend is especially evident in the education, healthcare, hospitality and MICE (meetings, incentive, conventions and exhibitions) industries, where network reliability, coverage and connection speeds are the pre-requisites for winning businesses” said Johnny Law, Regional Sales Director, ACW.

We are delighted to be appointed as distributor for the Singapore market, Ruckus’s Smart Wi-Fi products is a great addition to our networking portfolio as we continue to provide innovative and state-of-the-art technology in our offerings that brings the greatest investment value and operational efficiencies to our customers.

About Ruckus Wireless

Headquartered in Silicon Valley, Ruckus Wireless is supplier of advanced wireless systems for the mobile Internetworking market. The company markets and manufactures a wide range of indoor and outdoor Smart Wi-Fi products for mobile operators, broadband service providers and corporate enterprises around the world. Since 2006, the company has realized record revenue and shipments with a CAGR of over 119% percent. Ruckus invented, and has patented, state-of-the-art wireless technology that steers Wi-Fi signals around obstacles and interference. This unique capability extends signal range and ensures consistent reliable distribution of delay-sensitive multimedia content and services over standard 802.11 Wi-Fi. The company has shipped over 2 million Smart Wi-Fi systems around the world and has raised \$51 million in funding from premier investors such as Sequoia Capital, Focus Ventures, Sutter Hill, Motorola, T-Ventures, Telus Ventures and Firelake Capital. The company is led by Ms. Selina Lo, president and chief executive officer. For more information, visit Ruckus Wireless at www.ruckuswireless.com
