WildPackets Appoints ACW Distribution in Singapore

Singapore, 15 October 2010 – WildPackets, Inc. (www.wildpackets.com), a leading provider of network and application performance analysis solutions, today announced the appointment of ACW Distribution (S) Pte Ltd ("ACW"), a leading IT enterprise solutions provider in Asia, as the distributor in Singapore.

Under this agreement, ACW will distribute and market through its extensive channel-partners network WildPackets' hardware and software solutions that drive network performance, enabling organizations of all sizes to analyze, troubleshoot, optimize, and secure their wired and wireless networks.

"Sales are often lost when there are intermittent network connectivity issues, peak traffic bottlenecks, or when applications are experiencing problems. WildPackets captures and monitors network traffic continuously to identify application and network performance problems and provide detailed information to help engineers proactively fix issues before customers even notice any problems. And with one of the fastest capture-to-disk rates available in the market today, WildPackets' solutions are must-haves for all enterprises that rely on technology to conduct their businesses. We are delighted to be appointed as distributor for the Singapore market, as WildPackets can enable us to continue to offer innovative technology to our customers." said Johnny Law, Regional Sales Director, ACW.

About WildPackets, Inc.

WildPackets, Inc., founded in 1990, develops hardware and software solutions that drive network performance, enabling organizations of all sizes to analyze, troubleshoot, optimize, and secure their wired and wireless networks. WildPackets products are sold in over 60 countries and deployed in all industrial sectors. Customers include Boeing, Chrysler, Fidelity, Motorola, Nationwide, and over 80 percent of the Fortune 1000. WildPackets is a Cisco Technical Development Partner (CTDP). For more information, visit WildPackets Inc. at www.wildpackets.com
